3 SAFETY INSTRUCTIONS

3.1 INTENDED USE

This product is intended to be used exclusively as an accessory as stated in the title of this document. This product has been developed for the professional use in the field of event technology, studio, TV, and broadcast.
This product is intended for mobile applications and not for fixed installations.
This product is not suitable for domestic use.
Liability for damage and third-party damage to persons and property due to inappropriate use is excluded.
Use of this product requires full sensory and cognitive abilities to ensure safe operation. Children and people with limited sensory or cognitive abilities must only use the product under supervision or with assistance to minimise the risk of injury or accidents.

3.2 SOFTBOX SAFETY

- Please read this manual carefully.
- Keep all information and instructions in a safe place.
- Follow the instructions.
- Use the softbox in the prescribed manner only.
- The softbox may only be used with the **Cameo ZENIT® W1200 G2** LED spotlight.
- Do not leave the product unattended while in use.
- Intense heat, moisture, acidic and chemically aggressive substances can damage the product and lead to unsafe operation.
- Due to its design, the softbox offers a large wind surface and is therefore not safe in windy conditions. Only use the product when there is no wind. If the wind starts to pick up, take the product out of operation and store it in a wind-protected place.
- The combination of the softbox with a spotlight changes the system's centre of gravity. This may create a risk of tipping. Do not place the spotlight unsecured on a table edge or similar, or else be sure to use a suitable stand.

WARNING

Choking hazard

Small parts and packaging material can be swallowed and may cause suffocation.

a. Keep the product and all packaging material out of the reach of children.

b. Keep plastic bags away from children.

3.3 EXPLANATION OF SAFETY AND WARNING SYMBOLS

Find the following safety and warning symbols on the device, the user manual, or the packaging:

This symbol indicates that you must read the complete user manual before using the product.

This symbol indicates a general hazardous situation.

This symbol indicates that the product is not suitable for household use.

This symbol indicates helpful hints or additional information.

3.4 GENERAL SAFETY

- Read this document carefully.
- Keep this document for later reference.
- Follow closely the instructions in this document.
- This document is an integral part of the product. If you sell or pass on the product, you must include this document.
- Only use this product according to its intended use.
- Risk of choking. Keep small parts away from children and individuals with impaired physical, sensory, or mental capabilities.
- Risk of suffocation. Keep plastic bags away from children and individuals with impaired physical, sensory, or mental capabilities.
- Observe all safety instructions and warning messages in this document, on the device, and on the packaging.
- Products are subject to continuous further development. If you find discrepancies between this document and the product labeling, the information on the product always takes priority.
- Do not remove safety instructions or warning messages from the product.
- Do not modify the product.
- If the product shows any sign of damage, do not use it.
- Do not operate the product with removed or missing covers.
- Do not expose the product to direct sunlight.
- If not further specified in the user manual under Technical Data, do not use the product in ambient temperatures that exceed 45 °C / 113 °F or fall below -15 °C / 4 °F
- This device is not suitable for use in marine environments, including ships, offshore applications, or areas exposed to salt-laden air, seawater, or corrosive atmospheres. Use in such environments is at the user's own risk. Any damage or malfunction resulting from such use is excluded from the manufacturer's warranty.
- Maintenance and repairs may only be carried out by authorized service personnel.

- Store and transport the product in a dry and safe environment.
- Clean the product on a regular basis. If applicable, see the user manual for maintenance intervals.

4 INSTALLATION

4.1 SOFTBOX INSTALLATION

1 Remove the softbox from the transport bag and unfold it.
2 Place the softbox in front of the spotlight's light head with the rear side and the two hook-and-loop straps facing down.
3 Pull the hook-and-loop straps on the left and right sides of the softbox rear section over the light head's side cooling fins.
4 Feed the two hook-and-loop straps through the opening between the light head and the device base as well the handle (optional for better handling).
5 Pull the hook-and-loop straps through the corresponding eyelets on the upper edge of the softbox rear section.
6 Tension the hook-and-loop straps slightly.
7 Fasten the corresponding hook-and-loop straps together.
8 Attach the supplied diffuser cloths to the inner front frame of the softbox using the sewn-on hook-and-loop fasteners.

5 MAINTENANCE

5.1 PRODUCT MAINTENANCE

- Only clean the softbox by hand using lukewarm water and mild soap.
- The softbox should not be machine washed.
- To dry, please unfold completely and allow to air dry.
- Permanent moisture can damage the laminated structure.

5.2 STORING THE PRODUCT

- Always ensure that you only pack and store the softbox when it is completely dry.
- After use, transport and store the softbox in the transport bag.

6 DISPOSAL

6.1 PACKAGING DISPOSAL

1. You can feed the packaging into the reusable material cycle using the usual disposal methods.
2. Separate the packaging in accordance with the applicable disposal laws and recycling regulations in your country

7 TECHNICAL DATA

Parameter	Value
Product type	Spotlight accessory
Type	Softbox for CAMEO® Zenit W1200 G2
Material	Metal, PES (Polyethersulfone)
Colour	Black
Width	640 mm
Height	60 mm
Depth	700 mm
