INSTANT HAZE 1400 G2

TOURING HAZER WITH MICROPROCESSOR-CONTROL

DESCRIPTION

With its maximum fluid consumption of only 9 ml per minute, extremely short warm-up time of less than a minute and ultra-silent operation, the INSTANT HAZE 1400 G2 from Cameo's Instant Series is ideal for discos, live events, theatre, TV and film.

The highly efficient, microprocessor-controlled hazer has a durable evaporation tube made of austenitic, stainless steel and an automatic self-cleaning system that prevents deposits and minimises maintenance. The vapour output can be regulated continuously without reheating and, like the fan speed, in 1 % intervals for stages and rooms of any size.

In addition to its proven performance, the INSTANT HAZE 1400 G2 has been optimised for even greater user-friendliness: The intuitive touch display enables particularly quick and easy operation directly on the device. The detachable powerCON TRUE1 connection is also integrated for a secure power connection and flexible handling.

The INSTANT HAZE 1400 G2 can be controlled in 2-channel mode via DMX and operated as a standalone unit. It is equipped with 3 and 5-pin DMX inputs and outputs and has a robust design with a slot for fluid canisters up to 5 litres. The device is protected against overheating.

For optimal results, use Cameo Instant Haze Fluid, which has been especially developed for Cameo Hazer. Use of other fluids will void the warranty and may damage the device.

FEATURES

- Microprocessor-controlled 1,500-watt hazer
- Intuitive touch display for particularly easy operation
- Detachable powerCON TRUE1 connection for flexible and secure power connection
- Durable stainless steel evaporation tube
- Automatic self-cleaning to prevent deposits
- Output and fan individually adjustable at 1% levels
- 2-channel DMX control and stand-alone function
- Integrated slot for fluid canisters up to 5 l
- Ultra-silent operation – ideal for noise-sensitive applications
- Perfect for TV, film, theatre, discos and live events
- Enhances the effect of any light show with a fine, long-lasting haze

SPECIFICATIONS

General	
Colour	Black

Control	
Operating modes	DMX512
Number of DMX control modes	2
Stand alone operating modes	Stand-alone, Timer function
Data in connector	XLR 5-pole male, XLR 3-pole male
Data out connector	XLR 5-pole female, XLR 3-pole female

Mains operation	
Operation voltage	230 V AC / 50 Hz
Rated power	1500 W
Inrush current	32 A / 0.03 ms @230 V (first half cycle)
Mains connector	Mains plug device outdoor male & TRUE1®
Mains fuse	F10AL/250 V
Fuse replacement	Possible from the outside without opening
Power out connector	Mains plug device outdoor female & TRUE1®
